CHILDREN needed for BEHAVIOR and FOOD study at the University of Connecticut

Have you ever wondered how parenting influences your child’s weight? At the Psychology Department at the University of Connecticut, we are exploring the relationship between everyday parenting behaviors and child weight gain.

We are looking for:

- Families that identify as White Americans
- Who have children from 3 to 5 years old
- Able to come to UConn campus in Storrs or to schedule a home visit.

Eligible subjects can receive up to $100 in Amazon electronic gift cards for participating.

If you are interested, please contact researchers Nairan Ramirez or Gloriana Rodriguez at nairan.ramirez@uconn.edu or gloriana.rodriguez@uconn.edu to hear more about our study. (Please remember that we cannot guarantee the confidentiality of any information sent by email.)
