

### **2019 InCHIP Excellence in Faculty Mentoring Award**

The Institute for Collaboration on Health, Intervention, and Policy (InCHIP) is proud to announce a new annual award, the *InCHIP Excellence in Faculty Mentoring Award*. This award will recognize an InCHIP-affiliated faculty member who has **demonstrated an outstanding commitment to mentoring pre-tenure and mid-career faculty in health-related research activities consistent with the mission of InCHIP (e.g., mentoring in grant proposal development or study design)**. The recipient will receive \$500 in research funds. The awardee will be announced in April 2019 and honored at InCHIP's Annual Meeting in Fall 2019.

Nominations may be submitted by faculty, staff, or administrators. Self-nominations are acceptable and encouraged. Nomination packets must be submitted to InCHIP Director Amy Gorin, PhD ([amy.gorin@uconn.edu](mailto:amy.gorin@uconn.edu)) by 11:59 PM on April 1, 2019.

The packet should include the following:

- (1) The name, title, and department/school of the nominated faculty member. **InCHIP-affiliated faculty members of any rank at any UConn campus are eligible**; however, administrators at the rank of Department Head or higher are not eligible.
- (2) A nomination statement (maximum of 500 words) that reviews the nominee's accomplishments and identifies specific indicators of how the nominee's work meets the award criteria.
- (3) At least two letters of endorsement from UConn faculty members. These letters may be from tenured and tenure-track faculty as well as non-tenure track faculty. At least one of the letters should come from an individual who has benefitted directly from the nominee's mentorship.

The selection committee will be chaired by the InCHIP Director.
