

2019 InCHIP Junior Faculty Research Excellence Award

The Institute for Collaboration on Health, Intervention, and Policy (InCHIP) is proud to announce a new annual award, the *InCHIP Junior Faculty Research Excellence Award*. **This award will recognize a pre-tenured InCHIP-affiliated faculty member who has made significant scientific contributions in their area of research in a health-related domain consistent with the mission of InCHIP.** Research excellence is defined here as: work that reflects a high degree of scientific contribution in terms of its substance, quality, originality, and impact. The recipient will receive \$500 in research funds. The awardee will be announced in April 2019 and honored at InCHIP's Annual Meeting in Fall 2019.

Nominations may be submitted by faculty, staff, or administrators. Self-nominations are acceptable and encouraged. Nomination packets must be submitted to InCHIP Director Amy Gorin, PhD (amy.gorin@uconn.edu) by 11:59 PM on April 1, 2019.

The packet should include the following:

- (1) The name, title, and department/school of the nominated faculty member. Eligibility is limited to InCHIP-affiliated faculty members who hold the rank of Assistant Professor at any UConn campus.
- (2) A copy of the nominated faculty member's CV.
- (3) A nomination statement (maximum of 500 words) that reviews the nominee's accomplishments and identifies specific indicators of how the nominee's work meets the award criteria.
- (4) One or more letters of endorsement from UConn faculty members attesting to the nominee's research excellence. These letters may be from tenured and tenure-track faculty as well as non-tenure track faculty. At least one of these letters should come from the nominee's Division/Department head, Center/Institute Director, or Dean.

The selection committee will be chaired by the InCHIP Director.
